APPLE SEEDLINGS

To The Nursery Trade:

The handling of-apple seedlings has been one of our leading specialties ever since we have been in business, which extends over a period of fifty years. The men that have charge of the growing of our seedlings have had long experience and are the best that can be procured in this country.

Our apple seedlings are grown on new land and are given the most thorough and constant cultivation. We have found in late years that it is necessary to spray them frequently throughout the growing season so as to produce a healthy and strong growth. This means considerable added expense in the growing but we feel that the results obtained from same justifies the extra expense.

Our seedlings are graded up to the highest possible standard and the extensive trade that we have is sufficient proof that our stock and grades sent out are satisfactory to the trade.

In all of our experience, we never have had a finer lot of seedlings to offer than we have this year.

We will be pleased to mail samples to prospective buyers.

We can often give our customers the advantage of carload rates to various points over the country, which is quite a saving in freight charges.

APPLE SEEDLINGS, grown from French crab seed	Per 1,000
1-4 inch and up, straight or branched.....	\$15.00
No. 1, 3-16 inch and up, straight or branched.....	10.00
